

THE BELT EXPERTS

Quality. Performance. Delivery. Support

A close-up, high-contrast photograph of a V-belt, showing its characteristic trapezoidal cross-section and the repeating pattern of its ribs. The lighting creates strong highlights and shadows, emphasizing the texture and form of the belt.

Belts engineered for
specific applications and
optimum performance

Designed and built to
rigid specifications

Rigorously tested in the
lab and field

Manufactured in ISO 9001
facilities in the USA

Designed for durability
and long life

Highest quality construction

Latest technology and materials

Timken Belts manufactures premium power transmission products that consistently deliver optimal performance that original equipment manufacturers depend on.

The Belt Experts

Every Timken® belt is the result of technology, engineering, and years of experience. Innovative product development, specially formulated components, time tested methods, and state-of-the-art manufacturing techniques set Timken Belts apart from the competition. The team of belt experts at the Technical Center in Springfield, Missouri is dedicated to the development and testing of new and existing products to assure that every Timken belt provides outstanding performance in the most demanding application.

TIMKEN BELTS

Performance Driven. Performance Proven.

Our People

The strength of The Timken Company and its affiliated companies lies in the performance of its people. For over a century, Timken has adhered to a philosophy of supplying innovative products, unrivaled quality, and superior customer service.

Our Service

Timken Belts produces belts for original equipment manufacturers who seek the optimum in quality and service. Every Timken® belt is backed by extraordinary engineering and technical support, and by a knowledgeable, and attentive customer service team.

On-Time Delivery

Understanding the importance of on-time delivery and fast turnaround, our flexible manufacturing model and short lead times provide responsive, reliable delivery.

Proudly Made in the USA

Products for OEMs are made in ISO registered manufacturing facilities in the USA by a proud team of engineers, technicians, and craftsmen. It's no accident that Timken belts are built to outlast and outperform competitors belts. That's why recognized original equipment manufacturers turn to Timken Belts.

TIMKEN BELTS

Timken Belts is part of The Timken Company's growing portfolio of engineered bearings and power transmission products. A manufacturer of premium performance power transmission belts, Timken Belts' associates and products help keep industry in motion and the world more productive.

Performance Driven. Performance Proven.
