Subject: Changes to Branding on Timken Belts

As our manufacturing footprint grows, we've updated the branding on our belts for improved consistency and brand recognition. The country of origin has been relocated next to the date code, and we are transitioning from the Timken Belts logo to the Timken® logo for enhanced brand visibility. This is a running change, first implemented in June of 2024. During the transition period, you may receive belts featuring either branding. There are no changes to the quality, construction, performance, matching tolerances, or manufacturing processes of Timken belts.
